What is referred by the remarks "under submission"? Have they not been issued at all?

12] I am sorry these have not been sent as yet. I got them only a few days ago (i.e. then of April & May) after reminding the office a number of times, and am going into them. The Inspector told me the delay was partly due to his forgetfulness. I shall see that such delays are avoided in future.

Ch. Secy

7 OCT. 1932

13] This is most unsatisfactory. It is for the Secy himself (not the office) to prepare these notes, discuss them with the Head of the Office and revise them if necessary, for submission to Govt. The inspection cannot be considered to be complete until all these things are done, and it is a pity that the work has been left in arrears since April last.

14) A complaint has been made to me by the Deputy - Commissioner, Kolar that these notes are prepared and go upto Government without discussions with the head of the office concerned resulting in the inclusion in the notes of a good deal of matter which might have been eliminated as a result of such discussions. Cannot this procedure be adopted?

C.R.B. on the date of inspection

1/11/17) With reference to the Ramanadan's
complaint, I beg to submit
that the procedure adopted
by me is as follows:- On receipt
of the inspection order I write a day or two
in advance of my own inspection to the
office to be inspected, examine the records
registers and standing orders. On my arrival
I again examine the registers, go over the
work and discuss them with the Head of the
office if available, & if not, with the subordinate
in charge of the work, remove their difficulties
and point them out the way of a proper observance
of the rules & procedure. In the last C.R.B.
inspections in moved offices had been con-
ducted years ago, and in some not at all,
the inspected the registers for about 3 or 4
years back. In large offices, this meant a
considerable amount of work, as records
registers had to be reconstructed

General and Revenue Secretariat | File No. | of 193

Serial No.

to see whether the rules had been observed or not. In cases where the clerks handling the work had been changed, there was difficulty in getting information for a proper understanding of the cases as this involved much waste of time. He recalled once that the Audit Clerk had to remain at the Place for a few days after my general inspection to complete his work. On his return he would forward me with his notes, which I would go through, eliminate all unnecessary matter with the approval of the Govt. forward them to the Head of the Office concerned for remarks. After the remarks were received, cases in which the explanation was satisfactory were eliminated and necessary action taken as regards the others, under the orders of Govt.

18) It will thus be seen that the notes sent to the Ramanadhan Comptroller only "formal" cases of irregularities for his remarks and final orders. His remarks have since been received & the file is herewith submitted for final orders. As regards discussion of the notes with the Head of the Office, this, as already stated, is done wherever possible. In the case of Kolar, however, Mr. Ramanadhan was absent from Headquarters on the day of my inspection, but I remember discussing various questions with Mr. P. A. & office staff of Mr. Tumkur. Shimoga & Chikkaballapur I had opportunities of

NOTE—Contn. Sheet.

discussing the matter with the D.C's remarks and many things were settled on the spot.

19) As regards the Chief Secy's remarks in the lunkid file (1562) that I should myself perform the works, I beg respectfully to submit that in my present position this will not be possible if any work of N.D. Dvn. is not to fall considerably in arrears. I am in charge of two Henry Bounties and if I remain out of N.D. Dvn. for days together, as would be necessary if I have to do the detailed audit work myself, my work of N.D. Dvn. would be seriously disturbed, as, during my absence, only urgent files are attended to by my colleagues in the Lieutenant. This may be possible in future when offices are inspected annually, when much time will not be required for audit at present; however, for each of regular periodical inspection, the rules have been both understood & also followed in most of the offices inspected, & as there are 72 audit offices in the State, the magnitude of the task of putting them all in order by a short time Lieutenancy can better be imagined than described.

2) The inspection notes are usually dealt with as promptly as possible, but in a few cases there has been delay for reasons already explained (vide Lunkid file (1562)). In future, however, efforts will be made to have them sent to the

Serial No.

officers concerned within a week after the inspection and despatch by the Member-in-Charge

That procedure

I Depot

21) These inspections commenced in some cases years after the appts objected to have been made futile in their most important purpose in that the objectionable appts are not promptly vetoed then and there. When the irregularity is noticed it will often be too late to rectify matters and all that can be done is to note the conduct of the appt'g officer if he is found to have wilfully transgressed and the value of the position too will be a difficult one in having to explain matters long after the event is past The B-statement should as soon as the

A

NOTE—Contn. Sheet.

appl. & more should contain all the material necy to know if the appl made is in order or not. And if the Statement is promptly checked at the Central office, there will be no necessity for the Secy CBR to undertake these inspections as part of a regular prog amme. He can then confine himself to the test inspections and these. Otherwise even a full time officer cannot do justice to the work seeing he may have to inspect not only the unit offices, but also the offices below them to detect irregularities. A set of instructions under the CBR rules may be drawn up and added to all the Inspection Report forms now prescribed. In this way each office will have been inspected once a year as regards the observance of these Rules also

22 A. I quite appreciate inspections covering a number of years and of much time & labour but much time. The less inspections shows of keeping the nature of test checks & might be confined to one year or two at the most— The notes should be promptly prepared, discussed with the Head of the Dept. revised in the light of such discussion before submission to Govt.

All the Offices in the Kadur, Shimoga and Chitaldrug Districts have been inspected.

Only Dist Offices in the Tumkur and Kolar Districts have been inspected.

Secretariat and Traffic Manager's Office of the Railway Dept & in the Mysore Distrct have been inspected.

Only 5 offices out of 43 in the Bangalore District have been inspected.

Hassan District has not yet been inspected.

B. A programme of the inspection of the remaining offices, is put up as directed.

It is proposed to inspect certain offices in Headquarters and in other Districts every month. The number of offices included in each batch is in proportion with the volume of work expected to be turned out during the period. If certain offices are left out for want of time, they will be included in the list for the next batch The programme is drawn up for

The idea, as per Member's orders, is ~~that~~ the insp^n work of the remaining offices should be ~~Start~~ spread over each month & ~~be~~ taken up Systematically according to a regular programme (previously chalked out), at the rate of two, every month. (preferably, from the C.R.B. viewpoint, two insp^n & heavy offices with scope for vacancies).

Of the several Unit offices, remaining to be inspected, about half is in B'lore H^q^s, & ~~the~~ half in the Dist^s. (Mysore, Tumkur, Kolar & Hassan). The insp^n & heavy ones, to be given preference, are the B'lore Central offices & the Dy. Com^rs & the D.E.O & School B^d^s offices. The lesser, the associated & the subordinate ones, in the ~~may~~ Dist^s, may, as far as possible, be taken up along with ~~the~~ the insp^n of the main ones.

In drawing up the programme, we may take up the B'lore offices & the Dt. offices alternately, every month, at the rate of two main offices. The programme may be, to start with, for 12 months, commencing from this April with the B'lore offices. (Say, Dist. Regr^r office & the S. L. Insurance ~~Dist. & Sessions Judge~~ office)
